Sophia Lindqvist

Lead Product & Design Systems Designer

Specialist in Scalable Design Tokens, Component Architecture & WCAG 2.2 AAA

Copenhagen, Denmark | +45 31 44 2099 | sophia@nordicui.design | github.com/sophialindqvist

PROFILE

Lead product designer with 8+ years crafting intuitive enterprise SaaS interfaces and scalable multi-brand design systems. Expert in Figma variables, design token architecture, visual typography hierarchies, user research methodologies, and strict WCAG 2.2 AAA accessibility standards.

EXPERIENCE

Lead Design Systems Architect
05/2021 - Present

NordicUI - Copenhagen

Architected multi-brand enterprise design system in Figma adopted across 14 product teams. Governed design token pipelines connecting Figma variables directly to CSS and React component libraries.

Stack: Figma, Design Tokens, Style Dictionary, Storybook, React UI

Senior Product Designer
08/2017 - 04/2021

CreativeFlow SaaS - Copenhagen

Redesigned complex analytics dashboards and onboarding flows based on comprehensive user research, increasing product retention by 28% and reducing support ticket volume.

Stack: Figma, User Research, Usability Testing, Wireframing, Prototypes

UI/UX Designer
02/2015 - 07/2017

Studio Bold - Aarhus

Crafted digital brand identities, responsive web layouts, and interactive design prototypes for international luxury retail clients.

Stack: Figma, Adobe Creative Suite, Typography, CSS3, InVision

Junior Graphic Designer
06/2013 - 01/2015

Danish Design Agency - Aarhus

Designed print publications, corporate brochures, and digital iconography systems following Scandinavian minimalist aesthetic principles.

Stack: Illustrator, InDesign, Photoshop, Color Theory
